

Community Guidelines

Launchparty Community Guidelines

Effective: April 27, 2022

We created Launchparty for everyone to feel comfortable learning, participating, and making a difference in the world of venture capital. We wanted to open the doors for everyone to interact with the brightest new founders and their amazing ideas, learn the ins-and-outs of the venture capital scene, and find a community of like-minded individuals with similar passions.

While you may not agree with other users on Launchparty, we expect that everyone will be respectful of the safety, privacy, and well-being of other users.

These guidelines specify what you are and are not allowed to communicate on Launchparty. Every user on Launchparty must abide by these rules, and they apply to all aspects of our platform, including issuer offerings, posting content, communicating with founders, and replying to investors.

Be Respectful

Disagreements are normal, but they are not an excuse to be disrespectful towards others or their beliefs. Harassment and exclusionary behavior is not acceptable.

- **Do not harass others or organize, promote, or participate in harassment.**
- **Do not organize, promote, or participate in hate speech or hateful conduct.**
- **Do not make threats of violence or threaten to harm others.**
- **Do not use Launchparty for the organization, promotion, or support of violent extremism.**
- **Do not sexualize children in any way.**
- **Do not post sexually explicit content of any kind.**
- **Do not share content that promotes self-harm or suicide.**
- **Do not share real media that depicts gore, extreme violence, or animal harm, especially with the intention to harass or shock others.**

Be Considerate

Be considerate of the rights of other users and the services provided by the Launchparty team.

- **Do not share content that violates anyone's intellectual property or other rights.**

- **Do not use Launchparty to spam, manipulate engagement, or disrupt other people's experience.**
- **Do not organize, promote, or engage in any illegal or dangerous behavior.**
- **Do not abuse Launchparty products in any way.**
- **Do not use bots.** Each account must be associated with a human.

Be Honest

We will be honest with you - we expect you to do the same.

- **Do not impersonate another individual, whether intentionally malicious or not.**
- **Do not share false or misleading information.**
- **Do not engage in activities intended to cause damage or gain unauthorized access to another user's account, network, or system.**
- **Do not distribute or provide access to content involving the hacking, cracking, or distribution of stolen goods, content, or accounts.**
- **Do not mislead Launchparty's support team.**

When a user violates any of these guidelines, we may take several steps of enforcement against them, including issuing warnings, removing content, suspending account access, and, if necessary, reporting to law enforcement.

If you come across a user, message, or post that appears to violate these guidelines, please report it to us at support@launchparty.vc.
